
Job Description - Precast Concrete Operatives

Sterling Services Ltd are one of the country's leading architectural precast concrete specialists with a comprehensive product range backed by a commitment to safety, quality and service.

Due to our growing business we now have vacancies for pre-cast concrete operatives at our busy Factory based in Hatch Beauchamp, just outside Taunton.

The following attributes are required;

- Maintain High Standards of Health & Safety
- Teamwork
- Organisation
- Communication skills

The role involves casting precast concrete panels using timber moulds, and requires individuals to measure and set out formwork and fixings to a high degree of accuracy. The work is of a technical nature and craftsmanship experience would be advantageous.

Various skillsets and experience that would be beneficial for these roles include:

- Technical experience
- Working to a degree of accuracy
- Slinger/Banksman experience
- Concrete and/or stone finishing
- General labouring/working with fresh concrete

Experience within the pre-cast industry is advantageous but not essential, as full training will be given to the successful candidates.

Full driving licence required as training may be given to operate various types of plant.

Please email enquiries to accounts@sterlingservicesltd.com

References are required.

Job Type: Full-time

Salary: dependent on skillset & experience.
