## Architectural Precast Specialists

---

### Job Description - Concrete Technician

Sterling Services Ltd are one of the country's leading architectural precast concrete specialists with a comprehensive product range backed by a commitment to safety, quality and service.

Due to our growing business we now have vacancy for a Concrete Technician at our Factory based in Hatch Beauchamp, Taunton.

The role involves sampling and testing of concrete and associated materials, ensuring compliance to the relevant BSI Standards. The recording of data, maintaining databases and cascading information to all relevant stakeholders. Ensuring Equipment is maintained and calibrated to UKAS requirements. Development and creation of new mix designs.

The following attributes are required;

- Maintain High Standards of Health & Safety
- Teamwork
- Excellent organisational skills
- Communication skills

Various skillsets and experience that would be required for this role include:

- Laboratory experience
- Knowledge of Concrete sampling & testing
- Technical and analytical experience
- Excellent written and presentational skills
- Knowledge and use of Microsoft Office

Experience within the pre-cast concrete industry is advantageous but not essential,
